Attending ICECOS on August 22-23, 2017

One of our research agenda is to publish the result of our work on data mining and data warehousing. For that we attended the 2017 International Conference on Electrical Engineering and Computer Science (ICECOS) which was held on August 22-23, 2017 in Palembang, Indonesia. Here we presented two papers:

1. Integration of Spatial Online Analytical Processing for Agricultural Commodities with penLayers. Authors: Imas Sukaesih Sitanggang, Muhamad Syukur, Asep Rahmat Ginanjar, Rina Trismingsih, Husnul Khotimah
2. Haze Trajectory Clusters in South Sumatra in 2015, a simulation using Opentraj. Authors: Imas Sukaesih Sitanggang, Ajeng Dwi Asti, Lailan Syaufina, Husnul Khotimah
