"The best way to predict your future is to create it."
Creating your future is a job for you and only you, because only YOU truly know where YOU want to go in life. A lot of us live our lives in the hopes of becoming someone that we always wanted to be, while only a few of us will truly be brave enough to go after our dreams. Do you believe that you can do all of the things that everyone else might tell you that you can't? Do you believe in working hard, and working harder when you fall short of a goal? Do you believe that you can overcome the voices of everyone around you, even the one inside of you that may doubt your capabilities, and the attainment of your dreams?

If you vehemently deny life's attempts at making it's way for you, then you will most definitely make your own way. Predict your future by creating it, never settle, just work hard at being you!
