Instead of wasting money on all kinds of home improvements and repair, consider the following items that can probably be found in most households!
1. Remove crayon marks
Squirt a small dab of non-gel toothpaste on the wall where the mark is. Rub gently with a soft cloth, then rinse with warm water. Voilà!

2. Deodorize hands
Can't get garlic or onion odor off your hands? Wash them with a blob of toothpaste.

3. Whiten sneakers
Clean rubber soles by rubbing scuff marks with an old toothbrush and non-gel toothpaste.

4. Buff a DVD
Get rid of light scratches by squeezing a little non-gel toothpaste onto a cotton ball. Wipe over the DVD from the center out to the edge. Rinse with water and dry with a non-abrasive, lint-free cloth—all gone.

5. Defog goggles
Coat the inside of swimming goggles with toothpaste, then wipe off—they'll be crystal clear.

1. Identify a bottle
Wrap a rubber band around a shampoo bottle and you'll be able to tell it's not conditioner, even if your eyes are filled with suds.

2. Neaten thread
Keep spools of thread from unraveling by wrapping them with a rubber band.

3. Hold a lid
Prevent a potluck disaster—secure the lid of the dish by stretching a band over the top.

4. Grip a tool
Wrap a rubber band around the handle of a hammer or screwdriver for a firmer grip.

5. Extend your pants
Hook a rubber band through the button hole and secure the other side to the button for an extra half-inch of breathing room.
