This Is Your Life
Do What You Love

LIFE.
Do what you love, and do it often.
If you don't like something, change it.
If you don't like your job, quit.
If you don't have enough time, stop watching TV.
If you are looking for the love of your life, stop;
they will be waiting for you when you
start doing things you love.

Stop over analyzing, all emotions are beautiful.
When you eat, appreciate
life is simple. Every last bite.

Open your mind, arms, and heart to new things
and people, we are united in our differences.
Ask the next person you see what their passion is,
and share your inspiring dream with them.

Travel often; getting lost will
help you find yourself.
Some opportunities only come once, seize them.
Life is about the people you meet, and
the things you create with them.
So go out and start creating.

Life is short.
Live your dream,
and wear your passion.

What do you want? Sometimes it's good to ask yourself this question and then see if your actions correspond with these same goals. For instance if you say you want straight A's how much time are you studying? If you want to be a better friend/spouse/coworker/relative how are you treating others? If you want more money, how are you managing the money you have now? Are you working toward what you want in life or are you just expecting it to happen?

To grow and achieve your goals we must ensure we are working towards them. Try it for yourself. Set up a progress report on what you said you want and what you did for it. Make efforts to help to keep yourself accountable for your actions and how they directly correlate with your dreams, and be willing to change the things in your life that are delaying your progress from achieving the goals in life you may desire.
