4. Lecture

Lectures associated with PMB Lab:

Plant Molecular Biology Lab (PMB Lab), Department of Agronomy and Horticulture, Faculty of Agriculture, IPB, Bogor – INDONESIA, offers and coordinates two lectures targeted for graduate students (MSc/PhD students). Both of these lectures were under the coordination of Prof. Dr. Ir. Sudarsono. In addition to these two lectures, Prof. Dr. Ir. Sudarsono also participate as a member of Team Lecturers for graduate level lecture coordinated by Prof. Dr. Ir. Nurhayati Ansori Mattjik, MSc.

Detail description of the lectures in which PMB Lab or Prof. Sudarsono participates can be read by clicking the following links:

- AGH634. Plant Genetic Engineering
- AGH635. Cellular and Molecular Analysis in Plant Breeding
- AGH637. Plant Cellular Physiology and Biology
