Image Retrieval Discussion Group

Image Retrieval Discussion Group is an informal discussion group on Image Retrieval. The intention of this group is to provide sufficient background on the state-of-the-art image retrieval technology so that the participant will be able to evaluate current image retrieval research and put them in the proper perspective. The member of this discussion group are students at Dept of Computer Science IPB. The meeting will be an 90 minute per week on each topic interest.

Some discussion materials can be downloaded at http://www.ilkom.fmipa.ipb.ac.id/yeni/group.html

Please subscribe to image_retrieval_IPB@yahoogroups.com if you would like to participate with this group.
